

Stories from the Film & Gaming Industries

Tuesday 17th October 2023
9.30am-3.30pm
Barking & Dagenham College

In 1996, a remarkable film was released, **Hackers** – a cult classic that was written by Rafael Moreau, starring Jonny Lee Miller and Angelina Jolie in breakout roles.

Hackers serves as a reminder of evolving cyber threats and illustrates the potential dangers of hacking and the need for ethical practices.

Kristin Ellingson, Rafael's writing partner, will be visiting the college to talk and answer questions about her career, Rafael and making big-budget films, as well as working for the AR/VR VFX studio MetaLVX which uses Unreal Engine to create virtual experiences and previs, production design and effects for film and television.

Join us for a day of stories from the world of Film & Gaming, listen to Kristin and other industry specialists discuss how technology has changed their world and opened-up so much more...and take the opportunity to ask the questions you've always wanted to!

This event will include:

Personal stories from big-budget movies

Independent (Indie) movies

Careers in Film & Gaming

Dragons, motion capture, CGI and 'Volume'

Interview with MetaLVX CEO

Working with Epic and Unreal Engine software

'Hackers' the movie

Cybersecurity and 'The Computer Misuse Act'

Kristin will be joined by Cyber, Film and Gaming VIPs, to take your questions at the closing 'Q&A Session'
